# Do You Know the Pencil Quill Fountain Pen?

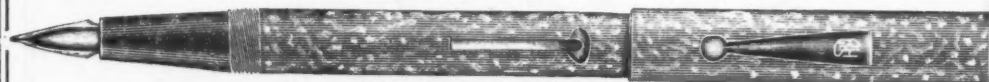

It is a pen made especially for the writers of Gregg Shorthand and the Palmer system of penmanship.

It is especially suited to users of all non-shading systems of penmanship and shorthand, because while it is flexible and writes at a touch, it will not make a shaded line. The strain on the mind and hand of the ordinary writer of shorthand to assure making an even, smooth line, is avoided, and the mind left free to produce the characters required.

In order to bring this pen to the attention of a large number of pupils, we are offering to send one pen to any teacher of a class of shorthand students free of charge, to be used as a prize for merit on the part of her class.

If this is properly featured by the teacher it should bring orders, and on these orders we will give 1-3 discount from the list price.

The prices are low considering that the pens are made of the very finest material and by pen-makers of years of experience.

(Jade Green  $\frac{3}{4}$  Actual Size)

The Pencil Quill comes in the following types:

- |   |            |

These pens are used largely in the following named schools:
